FROM THE PRINCIPAL

Term 2 was off to a fantastic start on Monday with all students present and eager to start their learning journey for the next 10 weeks. They have shown enthusiasm and commitment to their learning, which makes for a great educational environment at Warra.

English this term is completing our persuasive texts, and then looking at narratives, Science is concentrating on Chemical Sciences - Materials and their Properties, Technology covers the designing making of different objects and The Arts focuses on Drama, with the students being given a mission brief to complete.

As part of Warra’s explicit instruction agenda, students will be introduced to WALT – We are learning to…; WILF – What I am looking for….. and TIB – This is because….. This will reinforce the learnings in the classroom.

There are already a lot of things happening this term, and I have included an overview with this newsletter.
